### Liquid Manure for Fruit Trees.

Cultivators of the pear are often puzzled to guess the reason that frequently the same tree bears fruit of the best quality, at others nearly worthless, a fact familiar to all pear raisers. Perhaps this difference is more striking in the case of winter pears, which are sometimes yellow, melting, and delicious, and at others, green, hard, dry and tasteless. We are satisfied that the manuring and cultivation which they get, has a large influence in the matter, and have ascertained that some sorts to be really fine, must have a warm and rich soil; such for example, as the Easter Bourne, and Chamaelout. We are inclined to think from some little observation, that liquid manure will yet be found to contribute greatly to the full development of the quality of some sorts of pears, and for the information of such as may wish to try it, we here give Dr. Lindley's remarks on the best time for application. "For fruit the proper time for using liquid manure, is when the fruit is beginning to swell, and has acquired, by means of its own green surface, a power of secretion capable of opposing that of the leaves. At that time, liquid manure may be applied freely and continued from time to time, as long as the fruit is growing. But as the first sign of ripening, or even earlier, it should be wholly withheld. If liquid manure is applied to a plant when the flowers are growing, the vigor which it communicates to them must be also communicated to the leaves; but when leaves are growing, unusually fast, there is sometimes a danger that they may rob the branches of sap required for the nutrition of the fruit; and if that happens, the latter fall off."

It may perhaps be well to add, that liquid manure, like all other kinds of watering, should never be poured on the surface about the trees, as this will only harden the crust, without reaching the roots. A few inches of the surface should first be removed, the liquid then applied, and the earth replaced, or a mulching given. The practice of making holes about the tree with a crowbar, and pouring the liquid into these holes may succeed on porous soils.—Country Gentlemen.

**A POTATO TWENTY YEARS OLD.**—A much valued friend, who resides in this county, yesterday related to us a singular but interesting fact relative to the discovery of a potato which had been buried upwards of twenty years. It was found in the bottom of a well, in New Scotland, surrounded by cinders, such as can usually be gathered from around a blacksmith's forge. This well was filled up with earth some twenty years ago, and remained closed till within a short time, when the property changed hands and the well dug out. The potato found was planted some weeks since. It has sprouted up and is now growing.—Albany Journal.

**To Clean Wheat for seed.**—The brine in which hams have been pickled, is the best that I ever used for this purpose; it being thick, in consequence of blood and molasses, it will take out every bit, &c. B. F. W.

'Nature, sir, nature,' observed a first-rate ornament of the hair, while quietly rubbing his hands together, in order to dissolve a knob of bear's grease which he held between them, 'she defines the power of man to set her laws aside; and rest assured, this grease which has matured and then matured the hair on the bear's back, will perform the self-same office on your head. 'He's right, sir, I assure you,' said a wag, standing by, 'for friend of mine who was a bald, bought by mistake, a pot of goose grease; this he applied, and in a little time his head was covered with feathers.'

At the late Woman's Rights Convention a resolution was reported and laid over for the next meeting, that if justice was not fully done to the ladies, and that soon, then they would stay the population of this country! "Angels and ministers of grace defend us!" They'll have us there!!

The editor of the Woonsocket Patriot makes merry over the mistake of an old Shanghai hen of his that has been "setting" for five weeks upon two round stones and a piece of brick! "Her anxiety (quoth he) is no greater than ours to know what she will hatch. If it proves a brick yard—that hen is not for sale."

Something so.—If the speculator misses his aim, everybody cries out he's a fool, and sometimes, 'he's a rogue.' If he succeeds, they beseege his door, and demand his daughter in marriage.

'I say, Mr. Highflyer, would you let a fellow go with you in that 'ere balloon?' 'I could not possibly accommodate you, my dear friend.'

'Well, then, be kind enough to take my card along, for I am determined to get my name up some show.'

'Wife,' said the victim of a jealous rib one day, 'I intend to go to camp meeting on Tuesday evening, to see the camp break up.'

'And I think you won't,' replied she. 'I'll go if I see fit.'

'You will see fit if you go.'

He did not go—probably on account of the rain.

**HOW TO GET UP EARLY.**—Place a basin of cold water by the side of your bed; when you first awake in the morning, dip your hands into the basin and wet your brow, and sleep will not again steal you in its treacherous embrace.

Kissing is all the fashion in Paraguay. The ladies are very pretty, and amiable also, for when they hold up their faces for a salute they always take out their quids of tobacco, and deposit them on the rim of his hat.

### \$500 CHALLENGE.

Whatever concerns the happiness and health of a people is at all times of the most valuable importance. I take it for granted that every person will do all in their power, to save the lives of their children, and that every person will endeavor to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that worms, according to the opinion of the most celebrated Physicians, are the primary causes of a large majority of diseases to which children and adults are liable if you have an appetite continually chargeable from one kind of food to another, Bad Breath, Pain in the Stomach, Picking at the Nose, Hardness and Fullness of the Belly, Dry Cough, Slow Fever, Pulse Irregular—remember that all these denote worms, and you should at once apply the remedy:—

### Hobensack's Worm Syrup.

An article founded upon Scientific Principles, compounded with purely vegetable substances, being perfectly safe when taken, & can be given to the most tender Infant with decided beneficial effect, where *Duodeno Complicata* and *Duodeno* have made them weak and debilitated, the Tonic properties of my Worm Syrup are such, that it stands without an equal in the catalogue of medicines, in giving tone and strength to the Stomach which makes it an infallible remedy for those afflicted with Dyspepsia, the astonishing cures performed by this Syrup after Physicians have failed, is the best evidence of its superior efficacy over all others.

### The Tape Worm!

This is the most difficult Worm to destroy of all that infest the human system. It grows to an almost indefinite length, becoming so coiled and fastened in the Intestines and Stomach affecting the health so sadly as to cause St. Vitus Dance, Fits, &c. that those afflicted seldom if ever suspect that it is *Tape Worm* hastening them to an early grave. In order to destroy this Worm a very energetic treatment must be pursued, it would therefore be proper to take 6 or 8 of my Liver Pills so as to remove all obstructions, that the Worm Syrup may act direct upon the Worm which must be taken in doses of 2 Table spoon's full 3 times a day, these directions followed, have never been known to fail in curing the most obstinate case of *Tape Worm*.

### Hobensack's Liver Pills.

No part of man is more liable to disease than the Liver, it serving as a filterer to purify the blood, or giving the proper secretion to the bile; so that any wrong action of the Liver affects the other important parts of the system, and results variously, in Liver Complaint, Jaundice, Dyspepsia, &c.—We should, therefore, watch every symptom that might indicate a wrong action of the Liver. These Pills being composed of *Rhubarb* and *Plaster* furnished by nature to heal the sick: Namely 1st, An *Expectorant*, which augments the secretion from the Pulmonary mucus membrane, or promotes the discharge of secreted matter. 2d, An *Alterative*, which charges in some explicable and insensible manner, the certain morbid action of the system. 3d, A Tonic, which gives tone and strength to the nervous system, renewing health and vigor to all parts of the body. 4th, A Cathartic, which acts in perfect harmony with the other ingredients, and operating on the Bowels, and expelling the whole mass of corrupt and vitiated matter, and purifying the Blood, which destroys disease and restores health.

### To Females.

You will find these Pills an invaluable medicine in many complaints to which you are subject. In obstructions either total or partial, they have been found of inestimable benefit, restoring their fractional arrangement to a healthy action, purifying the blood and other fluids so effectually to put to flight all complaints which may arise from female irregularities, as head ache, giddiness, dimness of sight, pain in the side, back, &c.

None genuine unless signed J. N. Hobensack, all others being base imitations.

### Cure of Consumption,

Liver Complaint, Colds, Coughs, Asthma, Bronchitis, and all Throat and Lung Complaints.

I have published a brief work on Consumption, which contains an invaluable recipe for the cure of these prevalent diseases, even in their worst stages, when friends and physicians have given up all hope. The *Lung Balsam* prescribed in this work Cures without the expensive aid of physicians or injurious use of patent medicines. In adopting this *System of Cure* the patient knows what he is using—knows that he is not shortening his days by the use of any of those mercurials, which may seem to relieve but never Cure. He knows when using this *Life-saving Balsam* that he is taking mild, pleasant, efficacious remedies, such as *Nature prescribes*, for the ill he is suffering from. The ingredients composing this *Lung Balsam* are obtained cheaply (too) wherever consumption exists, proving that *Every ill has its antidote*. Consumptive patients may rely on this receipt—(all Lung Complaints are removed by its use)—I would not attach my name to it, had I doubt of its efficacy. The directions for preparing and using the Balsam are perfectly plain. I prefer selling the Recipe to making the Balsam, as it enables people to make their own Medicine at a trifling cost. I will impart the secret of making the Balsam, and the Family right to use it, for \$1, but in no case will I sell it for speculating purposes.

### Proof of its Goodness.

JACKSON, Mich. March 21, 1851.

DOCT. S. TOWNSEY—Sir: You wished me to let you know what effect your preparation of Medicine for Consumption and other diseases had in my family. After the first ten days my wife gained in weight 3 lbs, relieved her cough, changed her countenance, and all appearances were better. My family would not be willing to do without it. It is a medicine much needed in Jackson—there is many cases similar to my wife's. The Rev. Mr. Blanchard will write you for a recipe. Respectfully yours, O. F. POOL.

### Stroudsburg and Easton

Port Jervis, Mauch Chunk and Scranton

### STAGE LINES.

The Stroudsburg and Easton mail line of stages, consists of excellent four horse coaches, and leaves J. J. Postens' Indian Queen Hotel, Stroudsburg, Pa. every day (except Sundays) at 7 o'clock a. m. arriving in Easton before the departure of the cars for New York, or stages to Bethlehem and Allentown.

The following lines leave Postens' Indian Queen Hotel, Stroudsburg, Pa. every Monday, Wednesday and Friday, returning on alternate days:

A line to Port Jervis, leaving at 7 o'clock a. m. via Bushkill, Dingman's Choice and Milford. Returning, leaves Port Jervis immediately after the arrival of the morning train of cars to New York, at about 8 o'clock a. m.

A line to Mauch Chunk, leaving at 7 o'clock a. m. via Brodheadsburg, where it connects with lines to Wilkes-Barre and Wheat Haven.

A line to Scranton, leaving at 7 o'clock a. m. via Bartonsville, Tannersville, where it connects with a line to Honesdale, and connecting at Scranton with the cars for the west.

These lines hold out strong inducements to the traveling public—passing through sections of the country which are as magnificent and picturesque as any in the Union. Having provided themselves with excellent coaches, good horses, and careful drivers, they feel confident that they will be enabled to give entire satisfaction to all who will patronize them.

### B. A. FARNESTOCK'S VERMIFUGE.

A SURE REMEDY FOR WORMS.

The testimony in its favor is overwhelming. The proprietors are daily in receipt of letters and certificates, going to prove its remarkable efficiency to all cases of worms, both in children and adults. The relief given, and the immediate improvement of health which follows its use, has called the attention of physicians to this article, and they freely recommend & prescribe it in their practice. The retail price is 25 cents per vial which brings it within the means of all.

Brooklyn, L. I. January 16, 1847.

I do certify that I gave one bottle of B. A. Farnestock's Vermifuge to my child, and in seven hours it passed 23 large worms. Any person doubting this may apply for further information at my residence corner of York and Jackson st's.

JAMES MCCAFFREY.

Poughkeepsie, N. Y. March 2, 1844.

I certify, that I took two vials of B. A. Farnestock's Vermifuge, for worms I have ever used. I have been troubled with tape worms for a number of years, and I have never found so good a medicine as B. A. Farnestock's Vermifuge. I therefore recommend it.

MARTHA CLIFT.

The public is cautioned against counterfeits and spurious articles, and to put no confidence in statements that 'Kolumstock's,' and 'S. Farnestock's Vermifuge,' are the same or as good as the only genuine article, which is B. A. Farnestock's Vermifuge.

### ESOTERIC ANTHROPOLOGY,

BY T. L. NICHOLS, M. D.

PRINCIPAL of the American Dydopathia Institute, Educational and Therapeutic, at Portchester, N. Y., one hour's distance from New York city on the New York and New Haven Railroad. A comprehensive and confidential Treatise on the Structure, Functions, Passional Attractions and Perversions, True and False Physical and Social Conditions, and the most intimate Relations of Men and Women.

The title, *Esoteric Anthropology*, will seem strange to many, but it is thoroughly appropriate. *Anthropology* is from *Anthropos*, a man, and *Logos*, a description. *Esoteric*, from *Esos*, within, signifies private, secret, interior, and was used by the ancient philosophers to distinguish their private lectures, given in the interiors of their dwellings, upon the sacred mysteries of science and philosophy, to their chosen disciples, from their *Exoteric* discourses, which were given to the public. *Esoteric Anthropology* is, therefore, a private treatise on Human Anatomy, Physiology, Therapeutics and Obstetrics—on the whole science of man—plain in language, full and faithful in illustration, unwritten with all the frankness of a private letter, under the seal of professional confidence. It contains the highest and deepest truths in every department of Human Physiology, with their individual and social application; the true nature and hidden cause of Disease; the conditions of Health, physical and passional; all that information which every human being needs, which few dare ask for, or know how to obtain, but which, amid the discordances and depravities of civilization, is of priceless value.

There are many subjects connected with the broad science of Human Life, of the deepest and most vital interest to man and the race, in regard to which a terrible ignorance every where prevails; an ignorance which is destroying the health, shortening the lives, and sacrificing the happiness of millions—which threatens the power of nations, and the perpetuity of races.

Professional works on Physiology are dry, mechanical, or chemical, astonishingly ignorant, as well as technically incomprehensible. The popular works are superficial, meager, and necessarily wanting in the most important matters. The quack books are full of errors, false in science, absurd in philosophy, mischievous in morals, and basely necessary in their motives. In most cases these books are the advertising medium of some specious charlatan, who wants patients, or letters of consultation, or who has some important question, which any man or woman can credibly ask a physician, to which this volume does not contain an answer. It is so complete in this respect, that the author hopes and believes that no one who reads it will ever need to trouble himself with a professional consultation. It is henceforth his chosen method of medical instruction and practice, and in it he has performed the duty he owes mankind, as a healer of the sick, a preserver of health, and a teacher of the Laws of Life.

Among the subjects treated of in this work, are the following: Man, and his relations to the Spiritual and Material Universe; Principles of Physiology and the Active Forces of Nature; The Three Groups of Functions, Organic, Animal, and Generative; The Whole Philosophy and Processes of Reproduction; The True Law of Marriage; The Conditions of Health; Causes of Disease; Curative Agencies; Processes of Water-cure; Diseases and Treatment; Passional Diseases; Diseases of the General System; Brain and Nerves; Respiration; Digestion; Generation; Gestation and Parturition; Lactation and the Management of Infancy, &c., &c., including every important condition and process from the beginning to the close of life, and containing especially—

1. A clear and amply illustrated view of the structure of the human body, and all its complex organism, male and female.
2. A full account of the functions of life, with such an illustrated description of the evolution of the embryo, as has not before been given.
3. All that is known of health and disease, with the means for the preservation of the former, and the cure of the latter.
4. So careful an explanation of the whole process of gestation and childbirth, as will enable every woman to dispense with the services of a physician or professional midwife.

*ESOTERIC ANTHROPOLOGY* is plain and simple in language, full in illustration, as comprehensive as the utmost curiosity can wish, and without one tinge of quackery, or the remotest hinting at a fee.

It must be evident that such a book, written with the necessary freedom, and illustrated with fullness and fidelity, must not be profaned. It is not for the counter, the book-stall, the library shelf, or the center table. It is not to be offered for curious examination, nor urged upon those who can not appreciate its value. It is advertised, that every one who needs it may obtain it, if he will. Whether the social proprieties be true or false, the author can not violate them, and he feels compelled to keep this book truly confidential, a private work, to be sent as a confidential answer to a professional consultation, and he trusts that no person will apply for it who will not make it a point of honor to so consider it.

To all such persons it will be sent BY MAIL, to any designated address, POST PAID, on the receipt of One Dollar, sent free of postage, to T. L. NICHOLS M. D. Portchester, N. Y.

### MONROE COUNTY Mutual Fire Insurance Comp'y.

The rate of Insurance is one dollar on the thousand dollars insured, after which payment no subsequent tax will be levied, except to cover actual loss or damage by fire, that may fall upon members of the company.

The net profits arising from interest or otherwise, will be ascertained yearly, for which each member in proportion to his, her, or their deposit, will have a credit in the company. Each insurer in or with the said company will be a member thereof during the term of his or her policy. The principle of Mutual Insurance has been thoroughly tested—has been tried by the unerring test of experience, and has proved successful and become very popular. It affords the greatest security against loss or damage by fire, on the most advantageous and reasonable terms.

**Horse Owner's Secret,**

Being a new and certain remedy for the speedy

**Cure of Heaves,**

By SIR JAMES LYNDONTON,

Principal Farrier to his Royal Highness

Prince Albert.

THE great discovery contained in this little work procured Sir James his Baronetcy. It is really worth its weight in gold to all who own or use Horses. It prescribes a certain and positive cure for Heaves which any person can prepare. The remedy is better and cheaper than any advertised Heave Powder, and is perfectly safe, as any one can know who tries it. Horse owners know that many a valuable Horse loses half its price by this prevalent disease. The remedy prescribed in this work will cure him and increase his market value, besides relieving the poor beast of a horrible complaint, similar to the Asthma in a man. The public can depend on this work; it is no catchpenny humbug. The articles prescribed by Sir James are all cheap and can be had at any store. To prevent imposition the work will be sent in sealed envelopes. English price four shillings and three pence sterling.—American price, \$1 per copy. Persons ordering Sir James' Work, are expected to confine his instructions to their own animals.—It will be sent to none others.

An American Horse Doctor approves of the above System! Read what he says: APPLETON, Ohio, July 21, 1851

### LIVER COMPLAINT, Jaundice, Dyspepsia, Chronic or Nervous Debility, Diseases of the Kidneys,

and all diseases arising from a disordered Liver or Stomach, such as a constipation, inward piles, fullness or blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness, or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swimming or the head, hurried and difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, fever and dull pain in the head, deficiency of perspiration, yellowness of the skin & eyes, pain in the side, back, chest, limbs, &c. sudden flushes of heat, burning in the flesh, constant imaginings of evil and great depression of spirits, can be effectually cured by

Dr. Hoofland's celebrated German Bitters,

PREPARED BY

Dr. C. M. Jackson,

at the German Medicine Store, 120 Arch st. Philadelphia. Their power over the above diseases is not excelled—if equalled—by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and pleasant.

### Read and be Convinced.

From the Boston Bee.

The editor said, Dec. 22nd—Dr. Hoofland's celebrated German Bitters for the cure of Liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs. We will speak, under any circumstances, of a speaking from experience, and to the afflicted we advise their use.

'SCOTT'S WEEKLY,' one of the best literary papers published, said, Aug. 25—

'Dr. Hoofland's German Bitters,' manufactured by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems.'

### More Evidence.

The Hon. C. D. Hinde, Mayor of the City of Camden, N. J., says:

'Hoofland's German Bitters.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry respecting its merits.—From inquiry we were persuaded to use it, and must say we found it specific in its action upon disease of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

'If this medicine was more generally used we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginary diseases emanate. Have them in a healthy condition, and you can bid defiance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit.'

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact
